TIRE CHANGERS

Rim Clamp Tire Changers

COATS

Maxx Series

Built to withstand the harshest environments in high volume shops, the Coats Maxx Series tackles larger wheel assemblies easily, with dual nozzle bead sealer and a no index tabletop, so you can work up to a 16" width tire.

Maxx 50 Rim Clamp Tire Changer

- Polymer Duckhead
- Hand Bead Loosener
- Steel Clamps
- Dual Nozzle Bead Sealer for more air flow

6"-24" clamping range (30" with optional extended clamps)

TIRE CHANGERS

Rim Clamp Tire Changers

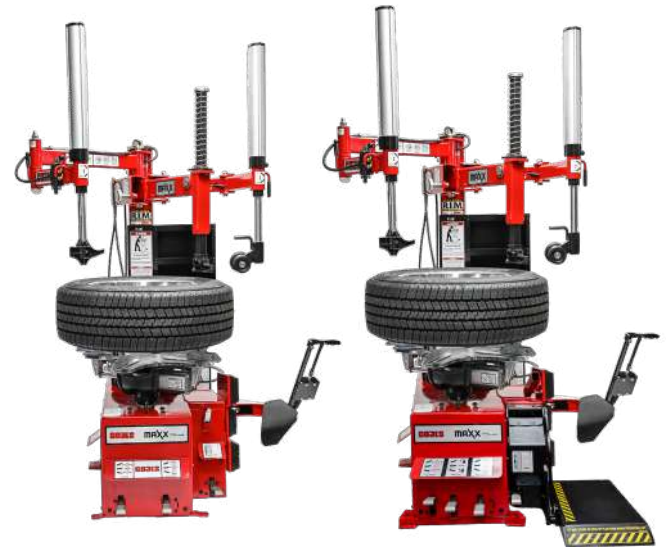

COATS

RC Series

With small, compact footprints (35"x44"), Coats RC Series Tire Changers are perfect for independent repair shops with limited space or new general repair shops.

RC-45 Rim Clamp Tire Changer

Classic rim clamp with basic tabletop inflation.

- Foot Operated Bead Loosener
- 10.5" Max Tire Width
- 6"-24" Clamping Range
- 3 Yr Parts Warranty

- ✓ Steel Clamps
- ✓ Steel Duckhead

RC-55 Rim Clamp Tire Changer

RC Robo-Arm® Helper Device helps press the bead and comes standard.

- Foot Operated Bead Loosener
- 10.5" Max Tire Width
- 6"-24" Clamping Range
- 3 Yr Parts Warranty

- ✓ Steel Clamps

TIRE CHANGERS

Center Clamp Tire Changers

COATS

C Series

The Center Clamp design is designed for quick, easy operation and minimizes wheel damage by reducing metal-to-metal contact.

80C

RoboRoller® applies pressure on the bead and comes standard.

- Hand Operated Bead Loosener
- 50" Max Tire Width
- 10"-30" Clamping Range
- 3 Yr Parts Warranty

- ✓ RoboRoller®
- ✓ Auxiliary Bead Sealer

90C

RoboRoller® and Leverless Bead Lifter included, no tire bar needed.

- Hand Operated Bead Loosener
- 50" Max Tire Width
- 10"-30" Clamping Range
- 3 Yr Parts Warranty

- ✓ RoboRoller®
- ✓ Auxiliary Bead Sealer
- ✓ Leverless Bead Lifter

TIRE CHANGERS

Tilt Back Tire Changers

COATS

Coats tilt back tire changers are capable of changing a wide variety of rims, including low profile steel, alloy, and high performance wheels.

APX 90

Clamp wheels up to 30" without special adapters. An integrated wheel lift reduces damage risk and keeps technicians safe. Dismount the bottom bead on tough assemblies with the lower roller.

Rim Dia.	9"-30" External
Max Tire Dia.	44"
Max Tire Width	16"

- Robo-Arm[®]
- RoboRoller[®]
- Horizontal Power Rollers
- Duckhead Roller
- Integrated Wheel Lift

Prefix	Part Number	Description
CTC	APX90E	Electric
CTC	APX90A	Air

APS 3000

The APS 3000 handles low profile and run flat tires easily with its Robo-Arm[®]. The patented Smart Lock System clamps the wheel in the center and minimizes the risk of rim damage.

Rim Dia.	9"-34"
Max Tire Dia.	47"
Max Tire Width	16"

- Robo-Arm[®]
- Dynamic Bead Loosener Discs
- Smart Lock System
- Leverless Duckhead Bead Lifter

Prefix	Part Number	Description
CTC	APS3000	Electric

9028E

This extended capacity, tilt back tire changer gives your shop the powerful capabilities it needs to take on the toughest tire service challenges with minimal effort.

Rim Dia.	10"-28" External
Max Tire Dia.	47"
Max Tire Width	14"

- Foot Control Bead Loosening System
- Lower Bead Lifting Roller Discs
- Upper Bead Roller
- Bead Pressing Arm

Prefix	Part Number	Description
CTC	9028	Electric

TIRE CHANGERS

Heavy Duty Tire Changers

COATS

CHD 6330

The most compact jaw-style clamping machine works for high volume shops with a wide range of applications like off-road, standard and reverse disc, and demountable wheels. Single Phase and 3 phase options available.

Rim Diameter	13"-27"
Max Tire Width	30.5"
Max Tire Dia.	63"

Prefix	Part Number	Description
CTC	CHD63301PH	1 phase, CHD 6330 Heavy Duty
CTC	CHD6330	3 phase, CHD 6330 Heavy Duty

CHD 9041

A great solution for fleets or multiplicities where fitments vary widely, including agricultural applications.

Rim Diameter	14"-56" (w/extension)
Max Tire Width	42"
Max Tire Dia.	90.5"

Prefix	Part Number	Description
CTC	CHD9041	Electric, CHD 9041 Heavy Duty

CHD 9551

Automated features and widest range of fittings in the CHD line. Best for skidders, agricultural, and off-road tires.

Rim Diameter	14"-56" (w/extension)
Max Tire Width	51"
Max Tire Dia.	95"

Prefix	Part Number	Description
CTC	CHD9551	Electric, CHD 9551 Heavy Duty

TIRE CHANGERS

Heavy Duty Tire Changers

COATS

HIT Series Tire Changers

The Coats HIT Series Tire Changers are ideal for Budd and Dayton wheels and tube or tubeless tires, delivering value, versatility, and rugged reliability.

HIT 5000

Both the HIT 5000 and HIT 9000 accommodate Budd and Dayton wheels and tube or tubeless tires. Comes with 3-jaw, self-centering, hydraulic clamping chuck, supported by dual tapered roller bearings, and a dual direction hydraulic motor to provide smooth torque. A convenient swing arm houses all hydraulic controls.

Rim Dia. 15"-38"
Max Tire Dia. 76"
Max Tire Width 25+"

HIT 9000

Rim Dia. 15"-44"
Max Tire Dia. 76"
Max Tire Width 25+"

HIT 6000

Easy to use, the HIT 6000 services tubeless truck tires in minutes with the use of adapters! Change all 15-degree single piece highway rims, even Dayton wheels, with one control stick and two-way pedals for bead loosening, mounting and demounting.

Rim Dia. 16.5"-24.5"
Max Tire Dia. 44"
Max Tire Width 16"
Wheel Width 6"-15"

Baseline 350 Wheel Balancer

Entry Level Wheel Balancer for Low Volume Shops

Prefix	Part Number	Description
CTC	BL350	Electric 110V, 60Hz, 1PH

Baseline 300/350 Combo

Equip your shop with the Baseline 300 entry level tire changer and Baseline 350 entry level wheel balancer; for low volume shops.

Prefix	Part Number	Description
CTC	300350	Baseline 300 Tire Changer and Baseline 350 Wheel Balancer

WHEEL BALANCERS

Direct Drive Wheel Balancers

COATS

With Direct Drive there are no belts or pulleys that require frequent calibration and wear out over time. The pre-balanced assembly of Coats Direct Drive Balancers brings speed, precision, and durability.

1600 Wheel Balancer

- Direct Drive with Intuitive touchscreen interface
- ProBalance™ fixes residual static in one easy step
- 5 and 12 o'clock lasers for tape weight applications
- Auto 3D data entry
- Stop, Lock, and Index technology
- Mount wheels quickly with Speed Thread pedal
- Double sided collets set included

Prefix	Part Number	Description
CTC	16003DA	1600 3D Balancer, 220V, 1PH
CTC	16003DB	1600 3D Balancer, 220V, 3PH

1500 Wheel Balancer

- Direct Drive with LED display and soft touch buttons
- Laser-Guided Operation
- 5 and 12 o'clock lasers for tape weight applications
- Auto 3D data entry
- Stop, Lock, and Index technology
- Double sided collets set included

Prefix	Part Number	Description
CTC	15003DA	1500 3D Balancer, 220V, 1PH
CTC	15003DB	1500 3D Balancer, 220V, 3PH

1300 Wheel Balancer

- High throughput, Direct Drive motor balancer
- Static-On-Screen® Display
- Auto 2D Data Entry for wheel diameter and offset measurement

Prefix	Part Number	Description
CTC	13002DA	1300 2D Balancer, 220V, 1PH
CTC	13002DB	1300 2D Balancer, 220V, 3PH

WHEEL BALANCERS

Space Wheel Balancers

COATS

Designed to be compact with small footprints, Coats space savings balancers are ideal for small bays and garages, letting you utilize any shop space to its maximum potential.

1185 Wheel Balancer

- Space saving footprint of 36.96"x39.60"x52.32"
- Color LCD display
- Live Position Indexing Guide
- Laser Weight Placement Guide
- Auto Start Hood
- 110V, plug in anywhere

CTC 1185 Electric 110V, 1PH

885 Wheel Balancer

- Compact with small 48"x18"x35" footprint
- LED Matrix Display with soft touch buttons
- Direct Tape-a-Weight placement
- Auto Start Hood
- 110V, plug in anywhere

Prefix	Part Number	Description
CTC	885	2D, Electric 110V, 1PH

WHEEL BALANCERS

Heavy Duty Wheel Balancers

coats

Designed for front line, high-volume balancing, the 6450 has a powerful 1.5 HP direct drive motor that shaves 20 seconds off a typical 22.5" spin. Make correcting static and dynamic imbalances, simple.

6450 Heavy Duty Wheel Balancer

- Auto Data Entry for all 3 parameters
- Easy to read LED readouts and laser weight placement
- Auto indexing moves the wheel to proper weight positions
- Dual Calibration Software rounds off and adjusts balancing parameters based on the job at hand
- Comes with 575 wheel lift that handles a wide array of assemblies up to 500 lbs
- 500 lb Met Lab and UL approved

Prefix	Part Number	Description
CTC	64503DLEA	6450 Heavy Duty 3D Balancer, 220V, 1PH, with 575 Wheel Lift
CTC	64503DLEB	6450 Heavy Duty 3D Balancer, 220V, 3PH, with 575 Wheel Lift

ACCESSORIES

Tire Changer Accessories

Grip Max 2.0 Clamps

Dual compound design with increased surface area for maximum grip. Three position adjustment capability and an updated jaw profile improve ease of use for outside clamping. Fits X and Maxx Series tire changers.

Grip Max 2.0 Clamps
CTC 5612106

Grip Max 2.0 Rebuild Kit
CTC 5611034

Grip Max Plus 30" Clamps

Provides an external clamping range of 16" up to 30". Dual compound design with increased surface area for maximum grip. Fits Maxx and X series tire changers.

Grip Max Plus 30" Clamps
CTC 5607986

Grip Max Plus Rebuild Kit
CTC 5607785

Steel 3 Position Clamps

Provide an external clamping range of 6" up to 24". Fits all X, Maxx, RC and GTS Series tire changers.

Steel 3 Position Clamps
CTC 184926

Quilted Clamp Socks

Protect wheel rims from damage. Pack of 10 socks made for use with steel clamps, except for 9010/9024 & Grip Max clamps. Compatible with Steel 3 Position Clamps.

Quilted Clamp Socks
CTC 183604

Prefix	Part Number	Description
CTC	5612106	Grip Max 2.0 Clamps with 3 position adjustment capability for wheel diameters 6"-24"
CTC	5611034	Grip Max 2.0 Rebuild Kit comes with a set of 4 replacement grips
CTC	567986	Grip Max Plus 30" Clamps with 16"-30" external wheel clamping range
CTC	5607785	Grip Max Plus Rebuild Kit includes 8 black grips, metal covers/teeth & 4 sets of hardware
CTC	560716108	Grip Max Plus Rebuild Kit 8 black, replacement grips only
CTC	184926	Steel 3 Position Clamps with external wheel clamping range, set of 4
CTC	183604	Quilted Clamp Socks for steel clamps except for 9010/9024 and Grip Max Clamps; pack of 10

Tire Changer Accessories

Nylon Duckhead® Mount/Demount Tool

Designed for added rim protection and replaces the steel Duckhead® mount/demount tool and fits RC-45, RC-55, X-Series, Maxx Series, and GTS Series models

Nylon Duckhead®
CTC 183061

High Spoke Plastic Duckhead® Mount/Demount Tool

The Plastic Gray High-Spoke Duckhead® mount/demount tool is designed for high-spoke wheels, lifting the bead above the spokes and is compatible with all X-Series, Maxx Series and RC Series tire changers.

High Spoke Plastic Duckhead®
CTC 184432

Steel Duckhead® Mount/Demount Tool

The plastic floating tail conforms to the rim to mirror its radius. This places the tire in the optimal position for installation.

Steel Duckhead®
CTC 1827881

CTC	5070LFTAIR	Maxx Wheel Lift for Maxx 50 and Maxx 70 air models

Wheel Balancer Accessories

COATS

Double Sided Collets (Set of 8)

Coats double sided collets are designed with a low angle, providing the technician with a durable and precise mounting method that replicates the mounting of the wheel on the vehicle.

Prefix	Part Number	Description
CTC	5609499	8 Double sided collets for 40mm balancers; Center Bore Range: 2.04" - 5.20" (52mm – 132mm)

Adjustable Pin Plates

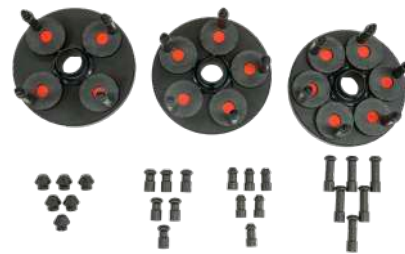

Adjustable pin plates offer one, reliable system when balancing wheels, allowing the technician the precision to achieve the ideal performance balance.

Prefix	Part Number	Description
CTC	5610104	3 finger, 4 finger, and 5 finger adjustable pin plate set for 40mm balancers

Three Piece Pin Plate Set

Coats newest adjustable pin plates with replaceable gear plates, made from super tough, composite material that's nearly double the stiffness of carbon steel. Rotating gears make the pins adjustable to fit a wide range of bolt patterns and will not bend if the pin plate is dropped.

Prefix	Part Number	Description
CTC	200000400	3 finger, 4 finger, and 5 finger adjustable, composite material pin plates for 40mm balancers with rotating, replaceable gears and 5 sets of pins

Balancer Point of Use Lift

The Coats 525 Wheel Lift helps you elevate heavy tire and wheel assemblies up to the appropriate height with minimal effort and is compatible with all 1300, 1400, 1500 and 1600 Direct Drive wheel balancers.

- Reduces operator fatigue
- Minimizes potential for expensive wheel damage
- Sliding platform for smooth, easy operation
- Air-powered scissor lift action

Prefix	Part Number	Description
CTC	800525	Air powered 525 wheel lift compatible with 1300, 1400, 1500, 1600 Coats Balancers

Wheel Balancer Accessories

Light Truck Kit for 40mm Shaft

Designed for light duty and medium duty trucks, including 1500 to 5500 series trucks, the Coats Light Duty Truck Kit is easy to use and incorporate into your workflow to ensure properly centered wheels and superior balancing results. Full kit shown.

Prefix	Part Number	Description
CTC	300000400	Light Truck Kit for 40mm shaft balancers with 4 set of pins, 3 collets, 5 thumb nuts, pin plate, spacer disk, screws

Medium Truck Kit for 40mm Shaft

Accurately center large 220/221mm wheels onto your balancer with the Coats Medium Truck Kit. Confidently and accurately center 6, 8, and 10-Lug commercial wheels, with a backing plate that improves static centering so you achieve accurate balancing results of heavy wheels.

Prefix	Part Number	Description
CTC	302010400	Medium Truck Kit for 40mm shaft balancers with set of pins, collet, 5 thumb nuts, pin plate, spacer disk, screws

Heavy Duty Kit for 50mm Shaft

The Coats 50mm Heavy Duty Truck Kit is a necessity that ensures correct mounting and accurate balancing results so you get it right the first time, every time. This kit is designed for high volume shops that rely on durable long lasting parts that maximize uptime.

Prefix	Part Number	Description
CTC	302010510	Heavy Duty Kit for 50mm shaft balancers with set of pins, collet, 5 thumb nuts, pin plate, spacer disk, screws

Wheel Balancer Accessories

Light Truck Cone Kit

Eliminates need for faceplate extension and spacer cone for certain light trucks.

Prefix	Part Number	Description
CTC	113277C	Light Truck Front Cone Kit for 40mm balancer; Double Sided Cone & Metal Backing Plate, Range: 4.80"-6.80"

Light Truck Back Cone Spacer

Extends the diameter of the faceplate to allow larger cones to be mounted behind the wheel. NOT for use on 775, 875, or 1175 Coats Balancers.

Prefix	Part Number	Description
CTC	111935	Light Truck Back Cone Spacer for back coning wheels up to 5.20" (132.08mm) center holes.

Ford ULA 3 Degree Cone

The Coats® Ford Ultra Low Angle Cone is specified by Ford to be used on 2003 and newer F150, Expedition & Navigator wheels in conjunction with Adjustable Pin Plates.

Prefix	Part Number	Description
CTC	1141821	ULA 3 Cone - Ford F150 for 40mm balancers, best used with Adjustable Pin Plates

In Between Cone Set

Prefix	Part Number	Description
CTC	113795	40mm Balancer In Between Cone Set

Wheel Balancer Accessories

coats

Toyota Adapter Kit

The direct matching of the offset adapter to the OEM wheel ensures that the wheel is mounted to the balancer in the same manner as it is mounted to the vehicle.

Prefix	Part Number	Description
CTC	5009945	Toyota Adapter Kit with Fixed Finger Plate and 2 Direct Fit Offset Plates

Pressure Cup and Rubber Lip

Small pressure cup with protective rubber lip with a 4.625" diameter.

Prefix	Part Number	Description
CTC	112106	Small Pressure Cup Assembly for 40mm Balancers, 4.625" Diameter, includes Rubber Protection Lip.

Hub Nuts

Coats Premium Quick Nut has a binary thread engagement that stay fully open during installation, eliminating wear and tear from dragging the teeth across the balancer's threaded shaft.

2 Post Lifts

coats

16K and 20K 2 Post Lifts

Our Heavy-Duty 2 Post lifts with symmetric arms are suitable for vehicles with a curb weight of 20,000 lb or less. The 16K and 20K models include adapters to get started right after install.

- Best for extra wide, tall, and heavy trucks
- 2 Stage symmetrical arms
- 199 1/2" Single piece column can be special ordered to fit your ceiling height
- 4HP U.S. made Bucher power unit
- Oversized base plate provides greater stability and reduces floor stress
- Heavy duty arm restraints are low maintenance, able to lift uneven loads while remaining stable

4 Post Lifts

COATS

15K 4 Post Service Lifts

The perfect general service 4 post lift is here. Designed and assembled in North America with premium materials, Coats 4 Post lifts require less maintenance, keeping total cost of ownership low.

- Double walled, non flex runway with Z Rail
- Non-rotating trunions prevent cables from twisting
- Double stacked pulleys
- Prestretched cables for less cable adjustments
- Lubricated grease fittings and bearings for reduced stress and friction.

INSPECTION

Coats Inspection Lane

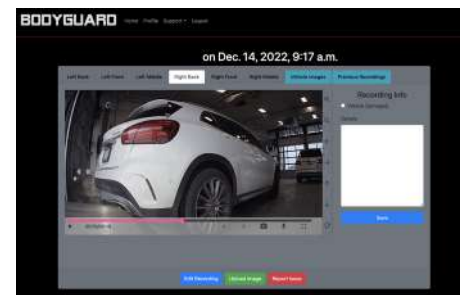

COATS

With the Coats Inspection Lane, you can increase service sales by building customer confidence - with tread and alignment reports - and by protecting your shop against false damage claims with Coats Bodyguard.

Bodyguard

- Protect your shop from vehicle damage fraud claims with HD cameras and LED lights that capture vehicle condition upon entry and exit.
- Waterproof design available, suitable for indoor and outdoor use, ensures durability in wet conditions.
- Easily accessible image and video footage history are stored in the cloud.
- License plate scanning streamlines the retrieval of images and videos, accessible by plate number or date.

CTC	5200022	Bodyguard Inspection, Outdoor, Standard
CTC	5200023	Bodyguard Inspection, Standard Tall

Coats Inspection Lane

coats

Alignment Check Towers

- Automated alignment scan detects issues in under 3 seconds with high-precision lasers.
- Scans for body damage to reduce liability and protect your shop from false damage claims.
- Instantly identifies alignment, steering, and suspension problems for quick diagnosis.
- Results are saved and accessible online, supporting detailed reporting that you can share with your customers.

Prefix	Part Number	Description
CTC	800FLPLUS	Alignment Check Towers System
CTC	800FLEVO	Alignment Check Towers System

Tread Depth Scanner

- Boost service revenue potential by instantly measuring tire tread depth with LED camera technology, as vehicles drive over the scanner in your service lane.
- Works under high vibrations
- Takes readings at multiple measuring points, reducing the chance of a faulty reading due to debris in tread, vibrations, and temperature changes.
- No moving parts and low energy consumption
- The simple, low-maintenance design is resistant to debris, water, and extreme temperatures.
- Show your customers tread depth reports instantly
